MathWorks 11 Student Resource Errors	
Page no.	Correction
213	<p>Mental Math and Estimation</p> <ul style="list-style-type: none"> • Runnichy should be corrected to Punnichy • Yorktown should be corrected to Yorkton
338	<p>The Roots of Math: The Origins of the Electronic Spreadsheet</p> <p>The profile contains some factual errors:</p> <ul style="list-style-type: none"> • 2nd paragraph, 3rd sentence should read: “At the time, Canadian citizen Rene Pardo was working as a consultant for Bell Canada.” • 3rd paragraph should read: “To help eliminate this waiting, Rene co-invented an early electronic form of the spreadsheet that allowed managers to make budget changes, while the computer automatically calculated the results of those changes throughout the budget. This forward-referencing feature was unique to Rene’s software, and it allowed users to make changes that would instantly be reflected in the entire spreadsheet. This new software was called Language for Programming Arrays at Random (LANPAR).” • 4th paragraph should read: “Though LANPAR was used by large companies in Canada and the United States, it took Rene and his business partner Remy Landau about 13 years to secure a patent for their invention.” (The final sentence should be deleted.)
388	<p>6.3 Build Your Skills #5 The solutions should be as follows:</p> <ul style="list-style-type: none"> a) Total days: 50 b) $I = \\$10.48$ c) $A = \\$310.48$
